

Would you like an instant reminder if your child's bus is running late?

The screenshot shows the Remind website interface. At the top, there is a navigation bar with the Remind logo, a 'Learn More' dropdown menu, a 'NEW School & District Plans' badge, and 'Log in' and 'Sign up' buttons. Below the navigation bar is a blue header section with the word 'RESOURCES' and the main heading '3 Steps to Get Started'. On the left side, there are two buttons: 'Download PDF' and 'Contact us', with social media icons for Twitter, Facebook, Email, and a plus sign below them. On the right side, there is a white text box containing the following text:

Remind is a free communication tool that lets teachers reach students and parents on any device, including by text. No more emails that go unread or printed newsletters that get crumpled and lost!

Teachers log in online or on the mobile app to send messages to students and parents via text, email, or push notification...all without revealing their personal phone numbers.

Go to: <https://www.remind.com/>

Download the Remind IOI app.

Or Text the class code (shown below for each bus) to 81010.
